NDALC

Nevada Disability Advocacy & Law Center provides free legal representation, advocacy, and technical assistance for individuals with disabilities in Nevada who have been denied their rights in the electoral process (right to register to vote, access to polling places, and right to vote). All requests for services are assessed on a case-by-case basis and will be evaluated based upon NDALC's current service priorities and available resources. Please contact one of our offices listed on the back cover.

This publication is intended to help Nevadans with disabilities understand their rights in registering to vote and in participating in the voting process. The information is designed to provide general guidance only.

HELP AMERICA VOTE ACT OF 2002 (HAVA)

On October 29, 2002, the President of the United States signed into law the Help America Vote Act of 2002 (HAVA), to improve the administration of elections. HAVA provides financial assistance to states and creates new minimum standards for states to follow in several key areas. Among other things, these new standards concern voting systems, voting accessibility, statewide computerized voter registration lists, provisional voting, information provided to voters, and voter registration by mail.

HAVA seeks to improve voting access to individuals with disabilities as follows:

- ◆ Establishes a Voting Protection agency and authorizes funding
- ◆ Makes accessibility grants available to states and local units of government to improve physical and non-visual access to polling places
- ◆ Creates minimum standards for accessibility of voting systems that states must follow
- ◆ Requires states to include individuals with disabilities in developing the State Plan for compliance with HAVA's requirements
- ◆ Provides funds for research on accessible voting technology

Other important non-disability provisions of HAVA include:

- ◆ Establishes the Elections Assistance Commission, a new federal agency to serve as a clearinghouse for election administration information
- ◆ Provides funding to states to improve election administration and to replace punch card and lever style voting systems
- ◆ Create minimum standards for states to follow in several key areas of election administration
- ◆ Establishes a state administrative procedure for voting complaints

PROTECTION AND ADVOCACY FOR VOTING
ACCESS (PAVA)

NDALC receives funds under HAVA for Protection and Advocacy for Voting Access (PAVA) on behalf of individuals with disabilities. NDALC has the following service priorities under PAVA:

◆ **Voter Registration**

NDALC provides voter registration assistance and education to individuals with disabilities by distributing Voter Registration Applications at outreach meetings and making them available at its offices or through the mail. NDALC encourages other agencies who provide services to individuals with disabilities to make Voter Registration Applications available.

◆ **Access to Polling Places**

NDALC advocates that both State and County Election Officials in Nevada assure that all polling places are accessible. NDALC further advocates that the State and County Election Officials purchase and make available at least one accessible voting machine at each polling place in Nevada.

NDALC assists individuals with disabilities in filing complaints regarding access issues (and other voting issues) under the State of Nevada based grievance procedure.

◆ **Develop and Disseminate Information related to voting and HAVA**

NDALC publishes and disseminates information to provide individuals with disabilities the opportunity to register to vote, know their legal voting rights, and access polling places.
